

# Product Design GCSE

## Who will provide this course?

Ysgol Ardudwy.

## What will I be learning?

The course will help you;

- combine skills with knowledge and understanding in order to design and make quality products.
- develop capability through focused tasks which involve a range of contexts, materials and processes, including industrial practices.
- Analyse and evaluate products and processes and examining the wider effects of design and technology.

## How will I be learning?

The course is a mix of classroom and practical tasks. You will get a chance to prepare and practise your skills before you are assessed so that you know and understand what you will have to do.

## How will I be assessed?

The scheme of assessment for the GCSE will consist of a final examination carrying 40% of the total marks and course work consisting a three dimensional product with a concise portfolio carrying 60% of the total marks.

## What will happen after this course?

After Year 11 there is the possibility of following,

- Product Design at A level leading on to University.
- National Diploma in Art and Design level 3.
- Edexcel National Diploma in Mechanical Engineering level 3.

## Job suggestions:

- Product Designer
- Architect
- Industrial Designer
- 3D Designing
- Quality Controller
